Frequency Distribution

For the frequency distribution we have just to count the number of times a particular value is repeated, which is called the frequency of that class. In order to facilitate counting, prepare a column of tally

Example Following data shows the number of refrigerators sold on 25 working days by a leading agency house

No of Refrigerators

23, 30, 20, 26, 30, 30, 20, 23, 40, 40, 26, 20, 23
40, 28 26, 23, 30, 40, 28, 28, 30, 20, 30, 28

No. of Refrigerators	Tally Bars	Frequency No of days
20	IIII	4
23	IIII	4
26	III	3
28	IIII	4
30	IIII I	6
40	IIII	4
		25

Cummulative Frequency Distribution

No of Refrigurapers	frequency of No. of days	cummulative frequency
20	4	4
23	4	8
26	3	11
28	4	15
30	6	21
40	4	25
	25
